American Community Bank, Monroe, NC

Patern:

Verde Swirl – Satin Finish

Sizes:

MuruStone – typically 24" x 34"
Logos – 32" high x 40" long
Plaques – 12" x 16"

American Community Bank is a newly formed bank in Union County, NC that is growing rapidly to service this fast growing North Carolina County. MuruStone is proud to be a part of the strong new image projected by this financial institution.

The main lobby of the main office of American Community Bank uses MuruStone on the walls behind the teller counter; as the company logo incorporated into those walls, and as special logo plaques in the casework at each teller station.

An American Community Bank Branch in Wal-Mart Super Store is a smaller reflection of the main branch.

The 36" high x 48" long "super plaque" carries the granite and the logo into every branch of this dynamic bank.

The ability to create special effects and sizes with multiple pieces set as a mural and special framing effects in the plaques at the teller stations is unique with MuruStone. These "extras" are very cost effective.
